

At Presto Valet, a top priority is the safety of our customers and our employees.

GreenEarth Cleaning, which we use at Presto Valet, is the best dry cleaning solution currently available in terms of killing bacteria and viruses such as the novel coronavirus. This particular dry cleaning solution has the highest flashpoint (170 degrees F) -- which allows us to clean and dry your garments at temperatures well above the minimum 158 degree F threshold that the World Health Organization (WHO) indicates will inactivate viruses.

For your convenience, Presto Valet now offers both drop-chute and curbside options. You may use our free "Drop & Go" bags to deposit your items in our 24/7 drop chute (on the side of our building) — OR — you may call ahead (703-998-6464) for curbside drop-off and pick-up service at our front door.

**We have instituted the following special Covid-19 protocols:**

- Employees will not come to work if they feel ill or exhibit symptoms of a cold, flu, or virus. Temperature checks are done when they report to work each day.
- Employees will wash their hands thoroughly at appropriate times.
- Employees will wear gloves when handling incoming garments, credit cards, and money.
- Employees will have access to hand sanitizers and disinfecting wipes.
- Employees will wear face masks provided by Presto Valet while on the premises.
- Employees will cover their coughs/sneezes with a tissue or their sleeve/elbow.
- Employees will not share food, drinks, or eating utensils.
- Frequently touched surfaces and objects will be sanitized multiple times each day.
- Customers will be waited on at alternate stations to provide better social distancing.

**Here's what our customers can do to help:**

- Do not enter our store if you feel ill or have symptoms of a cold, flu, or virus.
- Do not touch or shake hands with our employees.
- Try not to touch the counters with your hands.
- Let us know if your garments have any potentially dangerous stains, such as blood, urine, feces, or other bodily fluids.
- Cover your coughs/sneezes with a tissue or your sleeve/elbow or -- if possible -- wear a face mask.
- Distance yourself (6 feet or more) from the other customers in the store. For added safety, we have closed some counters and limited the number of customers allowed to be in the store at the same time.
- Check for updated messages on our website at <https://www.prestovalet.net>
